Class of 2011 Post-Baccalaureate Status Report
Executive Summary

The Career Services and Internship Office provides programs, activities, and individual career advising to assist students in developing a general perspective of life/work planning, as well as evaluating and effectively implementing specific job search strategies. The Post-Baccalaureate Status Report includes information collected from the Undergraduate College class of 2011 6-12 months after graduation. The data was obtained from the graduates through an on-line survey, email follow-up, LinkedIn and Facebook contacts, and through contact with faculty members.

Due to the cyclical nature of business and industry, the information in this report should not be viewed as long term results, but rather as an informational resource for career planning. Local and regional economics may impact different outcomes in this report from year to year.

A total of 261 graduates were surveyed resulting in a response from 154, thus representing 59% of the class of 2011.
